

OUR MISSION

Sacred Humboldt is redefining healing through regenerative farming, plant medicine, energy healing and immersive wellness tourism. We're building a healing center and farm that reconnects people with nature, energy, and ancient tools—offering real transformation in a time of mass burnout.

THE PROBLEM

People are overwhelmed, disconnected, and sick—emotionally, physically, and spiritually. The wellness industry has gone corporate, diluted, and stale. We're answering the call for something real—giving people the tools and education they need to help heal their bodies, minds and spirits.

THE SOLUTION

A physical healing center rooted in plant wisdom, energetic medicine, and farm with regenerative, ancestral land practices to supply the tools needed for the healing center.

A product line powered by the herbs we grow. An app that helps users heal themselves. And a tourist experience that heals, helps ground and expands consciousness.

THE TEAM

Kristen Klawitter – healer, developer, digital strategist, regenerative farmer, herbalist, visionary
